

Da Brim Thank you for purchasing an equestrian petite model Da Brim®! We hope you will enjoy your outdoor adventure in the cool comfort of 360° shade.

The equestrian petite Da Brim® visor product is designed to be installed to an equestrian helmet to be used with equestrian sporting activities only. The equestrian petite model Da Brim® is not designed for and should not be used with motorized sports and/or helmets and classes 5 and 6 whitewater helmets, bicycle helmets, or while engaged in any activity other than equestrian sports while wearing an equestrian helmet. We offer other model Da Brim®, such as multisport and cycling models that may be appropriate for other sports; see our website at www.DaBrim.com for more details. Do not use Da Brim® other than as instructed herein and do not modify Da Brim®. Read and understand all instructions and warnings prior to use.

Equestrian Petite Da Brim® installation is quick and easy!

The equestrian petite model Da Brim® may be used with either 1. equestrian helmets that have a visor over 1” that is pre-molded into the helmet that cannot be removed or 2. an equestrian helmet that has a removable visor or non-removable small lip up to 1”. First, determine what style helmet you have. If your helmet came with a visor that is not removable or has a non-removable, small lip up to 1” in width, you should remove the visor and proceed to instructions for this type of helmet in Section 2 for proper fit.

Section 1. If your helmet has a non-removable visor greater than 1” in width, you should install the Da Brim® using the pocket feature of the equestrian petite model. The following instructions will show you how to correctly install your visor to your helmet. When using the equestrian petite Da Brim®, make sure the fasteners in the pocket are sealed and that the pocket does not obstruct your vision after installation. Obstruction of your vision can cause a crash and may lead to serious bodily injury or even death.

Step 1. Begin with a loose adjustment strap.

Step 2. Open the front pocket by separating the hook and loop fasteners. Insert the helmet’s non-detachable visor into the pocket. Do not close the pocket fasteners yet.

Step 3. Pull the rear of the brim down and seat the brim on the helmet. Make sure the crown of the brim is level around the helmet’s circumference and does not interfere with where your ears will sit.

Step 4. Make sure the visor is as far inside the pocket as possible when the front of the equestrian petite Da Brim® is resting flat against the front of the helmet. Tighten the strap by positioning your thumb at the rear of the helmet and pulling on the strap a few times. Tuck the strap into the hole provided.

Step 5. Close the fasteners on the front pocket by mating the hook and loops. Make sure the pocket is tightly closed. The brim should not be buckled or bowed. Double check the tightness of the strap.

Step 6. Check for correct installation. Centers of helmet and equestrian petite Da Brim® should align. Always ensure the strap is tight. The brim should always seat in a level plane around the helmet with the front pocket tightly closed, to prevent detachment. Inspect hook and loop fasteners regularly for wear. If the fasteners do not function properly, discontinue use of this product. Check by pulling upward on the front visor as if in wind flow—the brim should not be loose or detach from the helmet. If the brim does not seat as described herein, do not use the equestrian petite Da Brim® with this helmet. Failure to properly seat the brim could result in the brim unseating during use and startling you or others, startling a horse, or obstructing your vision, which may lead to serious injury or even death.

Step 7. After the brim is installed on the helmet, follow the helmet manufacturer’s instructions for fitting the helmet. Then, while the helmet and brim are fitted, and prior to using the helmet and brim in an activity, check to ensure that the brim does not obstruct your vision. Pay attention to your peripheral vision. Should your vision be obstructed by the brim, remove the helmet and reinstall the brim. After proper installation of the brim to the helmet, your vision should not be obstructed.

To remove the brim from the helmet, wait until you are at safe location and at a rest position, then disengage the brim by releasing the tension on the strap by pulling up on the buckle. Pull up on the rear of the brim and remove.

Section 2. The following instructions apply when you want to use your equestrian petite Da Brim[®] with an equestrian helmet that has a flush front, removable visor, or pre-molded lip up to 1” in width. When using the equestrian petite Da Brim[®], make sure the fasteners in the pocket are sealed and that the pocket does not obstruct your vision after installation. Obstruction of your vision can cause a crash and may lead to serious bodily injury or even death.

Installation is quick and easy!

If your helmet has a removable visor, you should remove the visor before installing the equestrian petite Da Brim[®].

Step 1. Begin with a loose adjustment strap.

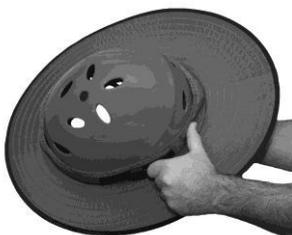

Step 2. Hold your helmet at the center back with your thumb on the outside and grip the center back loop of the brim at the same place with your thumb.

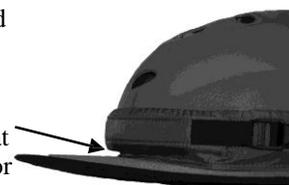

Step 3. Place your other hand at the front of the brim and rotate the assembly upside down. Push the helmet against your chest and slowly pull the brim over the helmet, seating the brim edge on the helmet. The black underside of the brim should end at the bottom edge of the helmet.

Step 4. Flip the assembly over and tighten the strap by positioning your thumb at the rear of the helmet and pulling on the strap. Tuck the strap into the hole provided.

Step 5. Check for correct installation. Centers of helmet and the brim should align; if necessary, pull to straighten. Always ensure the strap is tight. The equestrian petite Da Brim[®] should always seat below the front helmet surface, as shown, to prevent detachment. The front pocket should be closed and have a low profile. Inspect hook and look fasteners regularly for wear. If the fasteners do not function properly, discontinue use of this product. Check by pulling upward on the front visor as if in wind flow—the brim should not be loose or detach from the helmet. If the brim does not seat as described herein, do not use the equestrian petite Da Brim[®] with this helmet. Failure to properly seat the brim could result in the brim unseating during use and startling you or others, startling a horse, or obstructing your vision, which may lead to serious injury or even death.

Step 6. After the brim is installed on the helmet, follow the helmet manufacturer's instructions for fitting the helmet. Then, while the helmet and brim are fitted, and prior to using the helmet and brim in an activity, check to ensure that the brim does not obstruct your vision. Pay attention to your peripheral vision. Should your vision be obstructed by the brim, remove the helmet and reinstall the brim. After proper installation of the brim to the helmet, your vision should not be obstructed.

To remove the brim from the helmet, wait until you are at safe location and at a rest position, then disengage the brim by releasing the tension on the strap by pulling up on the buckle. Pull up on the brim and remove.

WARNING! The Da Brim[®] is not a safety device. The equestrian petite model Da Brim[®] is intended to be used as a brim for an equestrian helmet while engaged in equestrian sports only! Do not use the equestrian petite model Da Brim[®] except as intended. You are responsible for your own safety. The Da Brim[®] is not a substitute for a helmet and does not provide impact protection. Follow this product's instructions for proper use—failure to do so could result in serious bodily injury or death. Always follow the helmet manufacturer's warnings and instructions; if a conflict between this product's and the helmet's instructions exist, follow the helmet's instructions.

WARNING! Adult Supervision Required. The Da Brim[®] is not a toy. If not properly fitted and installed, the Da Brim[®] may obstruct vision, which may lead to serious bodily injury or death depending on the activity. Additionally, the Da Brim[®] straps may become entangled during certain activities such as swimming, climbing, or playing on playground equipment, which may lead to strangulation. Adult supervision is required to ensure the Da Brim[®] is installed correctly and used as intended.

WARNING! The Da Brim[®] may affect the ability of the helmet to slide during a crash. The Da Brim[®] may compromise the helmet's ability to slide during a crash. Failure of a helmet to slide during a crash may lead to serious neck or bodily injury, or even death. Do not use the Da Brim[®] unless you are willing to assume all risks associated with use of the Da Brim[®].

WARNING! The life of the Da Brim[®] may be less than 5 years. The life of the Da Brim[®] may be affected by heavy use, exposure to the environment, and other factors. The ability of the Da Brim[®] to be properly secured to the helmet may be compromised once visible wear or damage to the body, brim, straps, buckles, or fasteners exists. At such time, the Da Brim[®] should be discarded or replaced. Without the ability to be properly secured to the helmet as described in the installation instructions, the Da Brim[®] may not stay in position and obstruct vision while involved in activity. Obstructing vision while involved in the sport may lead to a crash, resulting in serious bodily injury, or even death.

Care. Hand wash separately in cold water. Do not bleach. Hang to dry. Do not wring. Do not iron. Store flat. Do not expose to high heat environments, such as the interior of a car on a hot day. Do not fold over 180 degrees or kink the outer support rod—the product may become damaged and its integrity may be compromised.

Limited Warranty & Disclaimer

Bryan Family Enterprises LLC (BFE) warrants to the original purchaser of the BFE product that the product shall be free of substantial defects in materials or workmanship for the warranty period. This warranty period shall be one (1) year from the date of purchase. This warranty does not apply to product damage due to heat, accessories, helmets, damage arising from a crash, defects or physical damage resulting from abuse, neglect, improper repair, improper fit, alterations, or use unintended by the manufacturer. **BFE DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY WARRANTY OF MERCHANTABILITY, NON-INFRINGEMENT, OR FITNESS FOR A PARTICULAR PURPOSE. NO REPRESENTATIVE OR PERSON IS AUTHORIZED TO CREATE A WARRANTY OR IN ANY WAY INCREASE THE SCOPE OF THIS LIMITED WARRANTY.**

Product Returns

During the warranty period, you may mail your BFE product to BFE with a letter indicating the specific reason you're returning the product and proof of purchase to the address listed below. If your returned product meets the warranty requirements in BFE's sole judgment, BFE shall approve your returned product ("Approved Return"). For Approved Returns, BFE shall at its sole option, either repair or replace your product free of charge.

Product Return Address: Bryan Family Enterprises LLC
Attn: Warranty Department
32108 Alvarado Blvd. #182
Union City, CA 94587

Limited Liability

TO THE EXTENT ALLOWABLE BY APPLICABLE LAW, BFE'S TOTAL LIABILITY TO YOU SHALL BE LIMITED TO THE COST TO REPAIR OR REPLACE THE BFE PRODUCT AND IN NO EVENT SHALL BFE BE LIABLE FOR ANY INDIRECT, SPECIAL, EXEMPLARY, CONSEQUENTIAL, OR INCIDENTAL DAMAGES.
