

Thank you for purchasing a PRO Vision model Da Brim hard hat visor! Our signature PRO line is made with the high quality and durability that professionals and their work environments demand. We hope the Da Brim hard hat visor increases your comfort level while out on the job.

The PRO Vision Da Brim hard hat visor product is designed to be installed to a hard hat ONLY. Do not use the Da Brim PRO Vision visor other than as instructed herein and do not modify the Da Brim PRO Vision hard hat visor. Please see our website at www.dabrim.com for further information on products for use in other activities.

Da Brim PRO Vision hard hat visor installation is quick and easy and works with both full brim and standard hard hats.

Step 1. Begin with a loose adjustment strap.

Step 2. Hold your hard hat upside down at the center back and place the hard hat's bill into the Vision's front fabric socket.

Step 3. Turn the hard hat over and work the textured grip material over the hard hat's bumps until flush with the hard hat's bottom edge.

Step 4. Tighten the adjustment strap until very tight. Get a good pull by using your thumb as leverage against the hard hat. Tuck the strap into the hole rear of the buckle.

Step 5. Check for correct installation. Centers of hard hat and visor should align; if necessary, pull to straighten. Check for a secure installation by gripping the visor on both sides and shaking the hard hat. The product should not be loose or detach from the hard hat. If the product does not seat as described herein, do not use the Da Brim PRO Vision visor with this hard hat.

Step 6. Snugly fit the hard hat according to the hard hat manufacturer's directions. Then, while the hard hat and Da Brim® visor are fitted, and prior to using the hard hat and visor in any activity, check to ensure that the visor does not obstruct your vision. Pay attention to your peripheral vision. Should your vision be obstructed by the visor, remove the hard hat and reinstall the hard hat visor. If your vision is still impaired after reinstallation, do not use the Da Brim® visor with this hard hat. Do not use the Da Brim visor in winds above 25 mph or where the hard hat is at risk of being blown off. Do not use in confined spaces where the brim may become caught.

To remove the visor from the hard hat, wait until you are at safe location and at a rest position, then disengage the visor by releasing the tension on the strap by pulling up on the buckle. Pull up on the visor and remove. Do not store in direct sunlight when not in use. Storage in direct sunlight and exposure to UV radiation may accelerate product component degradation.

WARNING! The Da Brim™ hard hat visor is not a safety device. The PRO Vision model Da Brim™ hard hat visor is intended to be used as a brim for a hard hat while engaged in proper activities requiring hard hats. Do not use the Da Brim® except as intended. You are responsible for your own safety. The Da Brim PRO Vision visor is not a substitute for a hard hat and does not provide impact protection. The Da Brim PRO Vision visor is not fire resistant; do not use this product where you may come into contact with fire. Follow this product's instructions for proper use—failure to do so could result in serious bodily injury or death. Always follow the hard hat manufacturer's warnings instructions; if a conflict between this product's and the hard hat's instructions exist, follow the hard hat's instructions.

WARNING! **Adult Supervision Required.** The Da Brim PRO Vision visor is not a toy. If not properly fitted and installed, the Da Brim™ hard hat visor may obstruct vision, which may lead to serious bodily injury or death depending on the activity. Adult supervision is required to ensure the Da Brim product is installed correctly and used as intended.

WARNING! **The Da Brim PRO Vision may affect the ability of the hard hat to slide during a fall.** The Da Brim™ hard hat visor may catch on objects during a fall leading to serious neck or bodily injury, or even death. Do not use the Da Brim® product unless you are willing to assume all risks associated with use of the Da Brim® product.

WARNING! **The life of the Da Brim™ PRO Vision product may be less than 3 years.** The life of the Da Brim® product may be affected by heavy use, exposure to the environment, and other factors. The Da Brim product should be inspected before each use. The ability of the Da Brim® hard hat visor to be properly secured to the hard hat may be compromised once visible wear or damage to the body, brim, straps, buckles, or fasteners exists. At such time, the Da Brim® product should be discarded or replaced. Without the ability to be properly secured to the hard hat as described in the installation instructions, the product may not stay in position and obstruct vision while involved in the activity. Obstructing vision while involved in the activity may lead to a crash, resulting in serious bodily injury, or even death.
